PROGRAM DETAILS

Our **Post Graduate Diploma in Project Management** program is meticulously designed to equip students with both foundational and advanced knowledge required to successfully manage projects across diverse industries in today's highly competitive and evolving business environments. The curriculum emphasizes a strong practical approach, integrating the use of industry-standard project management tools, software, and techniques that align with the latest guidelines set forth by the Project Management Institute (PMI).

Throughout the program, students will develop essential skills in planning, executing, monitoring, controlling, and closing projects of varying complexity. They will learn to manage project scope, establish realistic schedules, control costs, and meet quality requirements while effectively communicating with and managing stakeholder expectations. Special focus is placed on cultivating leadership, critical thinking, problem-solving, and strategic decision-making abilities that are crucial for project managers in today's dynamic workplace.

ADMISSION REQUIREMENTS

- Bachelor's Degree in a related field
- Minimum 18 years and older
- English Language Proficiency

Note: For the most accurate and up-to-date admission requirements, we recommend contacting our campus directly or visiting our website. Meeting minimum requirements does not guarantee admission, as program seats may be limited.

EMPLOYMENT PROFILE

Graduates of this program will be equipped with the knowledge and skills needed to enter the field of project management. They will be prepared to coordinate and lead non-technical projects, manage time, cost, and scope, and apply modern project planning software. Key competencies include communication, planning, budgeting, risk management, and quality assurance. Graduates are ready to support or manage projects in a variety of sectors such as business, technology, construction, healthcare, and more.
